www.totalhrm.com.au

Module 1 & 2

HR 101 & Adaptive Leadership

We will set goals for what you want to achieve through the program. We explore the must know around HR so you stay legally compliant. Utilising a DiSC assessment, you will understand your management style and how to adjust it to get the best from your team. You will have a set of tools to manage different personalities.

Module 3 & 4

Managing People Effectively & Emotional Intelligence

Understand how to manage people effectively, including assigning work to ensure your team gets the right things done at the right time. Emotional intelligence is THE crucial skill to develop to be effective at work and as a leader.

Module 5 & 6

Tough Conversations & Building High-Performance teams

Rather than avoiding the tough conversations, learn how to make those difficult conversations constructive for you and your team. You can bring the best out in people by building resilience and well-being – in yourself and your team. You will be shown how to build trust to inspire performance and learn the keys to creating a high-performing team.

Module 7 & 8

Recruit & retain the right talent & Presenting with Confidence

What is your Employee Value Proposition? Boost the quality and type of talent you attract and retain while running best practice recruitment. Overcome your fear of presenting in public, build your confidence, and understand the best practices for engaging an audience.

Module 9 & 10

Development Plans & Graduation

Create a plan for your growth and development to take you forward. We stop, reflect and celebrate all that you have learnt and how your skills have grown over the program.

Interested?

If you are interested in registering for our Leading Others 10-week workshop or any of our other training programs, please get in touch with us.

We offer a range of world-class training and assessment programs that will grow your people.
